Come see the improvements made to one of your treasured parks. Since it was built in 1960, Goot Park has become one of the most picturesque of the City's numerous park sites. Recent improvements were partially funded by Community Development Block Grant funds and include: new ADA compliant restrooms, off-street parking, drinking fountain, bicycle rack, new park signage, pathways, and a new swing set.

The City of Camas cordially invites you to the Dedication Ceremony for Goot Park.
